

EzDOCK<sup>®</sup>

DOCK *Life*

In 1991, two water enthusiasts started EZ Dock after finding that traditional dock options just couldn't meet their needs. Our EZ Dock founders researched dock manufacturers around the world and couldn't find one that was truly designed for longtime use and for maximizing time on the water. Wooden systems had to be dismantled and set up every season. They also had to be painted and repaired as they peeled and rotted. This meant more time spent on land — and less time on the water.

## OUR *Founders'* Goal WAS SIMPLE

To develop practical, attractive, eco-friendly dock systems designed for people who actually use the water and live life on their docks. No more one-size-fits all solutions. No more splinters, burned feet, or worries about disintegrating docks. No more investments washed away with each storm.

Proudly American made for 30 years.

# THERE SHOULD BE A *Better Option* THAN THE TRADITIONAL WOODEN DOCK

Designed with flexibility and strength so that, even in rough waters or bad weather, each piece of the dock will move independently and keep the whole structure intact.

With a unique coupling design, you can customize your EZ Dock residential or commercial dock to fit your specific needs, including ADA compliance. Easy to install, these docks come in a variety of sizes and types you can combine to get the waterfront experience you'd like. Your EZ Dock can evolve over time as your needs change, with easily configurable products.

Our worldwide dealer network provides world-class design and installation guidance, making delivery, installation, and service quick and convenient. And, most importantly for many of our customers, our docks are easy to add on to.

Look around and you'll see EZ Dock products at marinas, estates and homes, restaurants, resorts, military installations, government facilities, and in just about every other use. Whether you want a dock for kayaking, boating, swimming, or walking (or all of these applications!), EZ Dock can help.

## Low Maintenance and Barefoot-Friendly

- Durable and slip-resistant, polyethylene dock
- Won't chip, peel, warp, splinter
- No painting needed
- Cleans easily with soap and water

## Flexible Flotation Technology

- Flotation chambers constructed for optimal strength and structural integrity
- Designed to provide additional stability on the water
- Adapt easily to changing water conditions and levels

## Adaptable Design

- Outstanding load capacity, functionality, and safety
- Variety of sections, boat/PWC lifts, and launches
- Easily customizable design

## Environmentally Friendly

- Does not leach chemicals into the water
- Easily recyclable
- No chemical treatments used
- No foam used inside

## Innovative Coupling

- Couplers made of 100% recycled, rubber tires
- Heavy-duty, rust-resistant composite nuts and coupler bolts
- Strength and durability in the harshest weather conditions

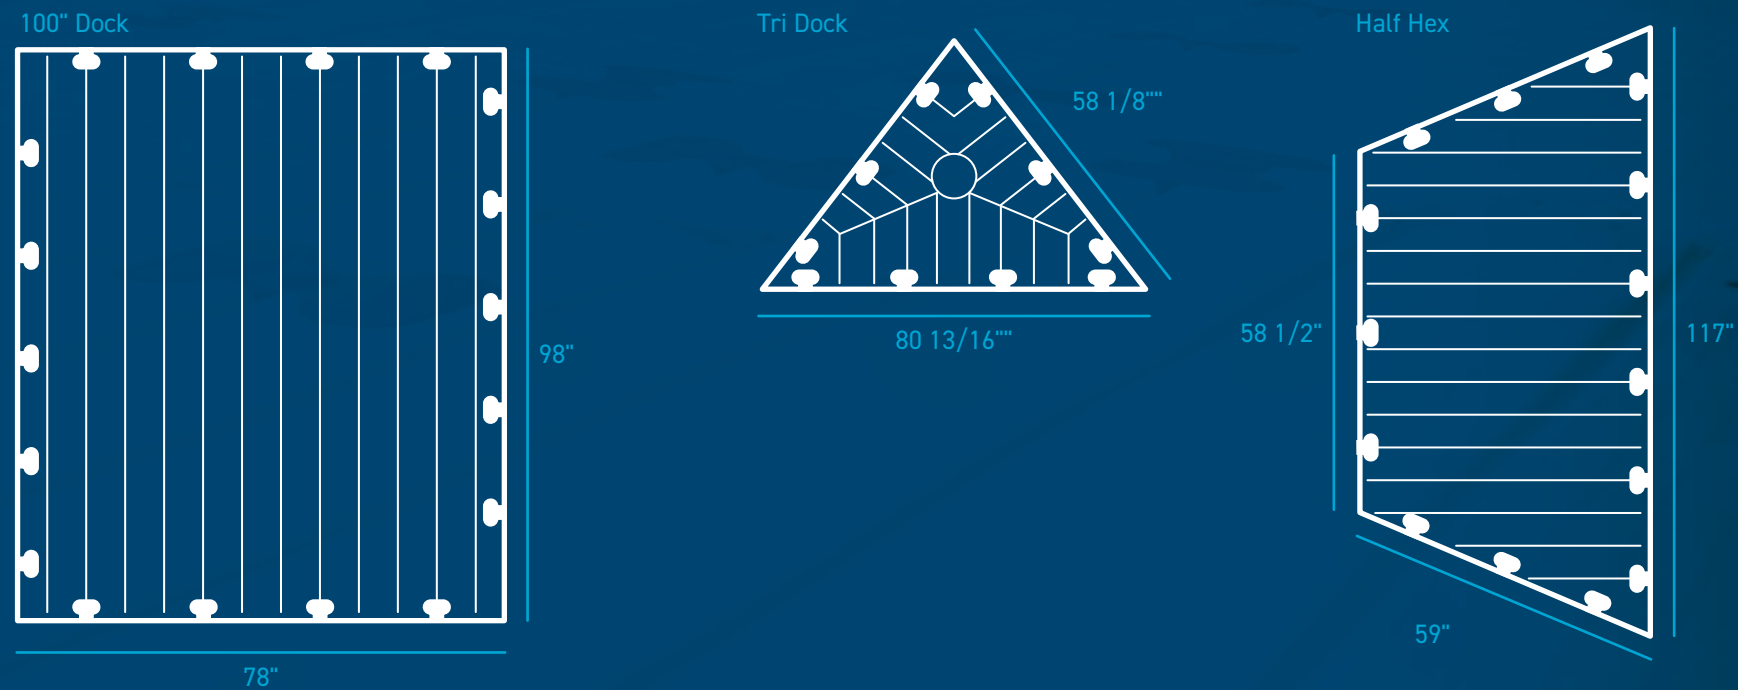

# STANDARD DOCK *Sections*

EZ Dock's polyethylene dock sections offer unmatched performance when it comes to modular docking solutions. Our revolutionary design is durable, slip-resistant, and low maintenance to help ensure an enjoyable time on the water.

Each dock and port section includes a decking surface and float structure in a single, integrated unit. No frame or expensive decking are required. Constructed with extra-heavy and extra-thick walls for optimal strength, dock sections remain stable while adapting easily to changing water levels, even under rough weather conditions.

Available in multiple shapes and sizes, EZ Dock sections can be configured for anything from simple private residences to complex marinas. Want to change your design or add to an existing design? EZ Dock sections can be easily reconfigured or expanded at any time.

- 100% virgin linear low-density polyethylene (LLDPE)
- UV Ray resistant
- Slip resistant pattern
- Unique pylon (chamber) design
- Rotationally molded, to allow no seams or connection points
- 62.5 lbs. per square foot, including dead load
- Standard - 14 5/8" tall
- Low Profile- 7 5/8" tall

# Unlimited CONFIGURATIONS

Our customization team is ready to help you create the dock area you've always wanted. With easy installation, get a dock that lets you make the most out of every minute on the water. All you need to do is join each section with our innovative couplings and tighten the bolts. Your dock will be up and running in no time, ready to start your Dock Life.

# YOU'VE GOTTA *Get Low* TO ROW

Our low-profile dock adds a fun element to any waterfront, creating a perfect place for rowing, swimming, fishing, and boating. With a low freeboard height, everyone will enjoy the ease of getting in and out of the water.

Rowing enthusiasts everywhere will appreciate the industry-leading low freeboard height and incredible stability. Our low-profile dock provides a safe platform for entering and exiting the shells as the design gives you the stability of a fixed dock while still having the modularity you expect from EZ Dock.

The EZ Dock low-profile dock is ideal for local and international competitive rowing events, as it exceeds FISA (International Rowing Federation) and US Rowing standards. Our low-profile modular dock system is designed to be easily reconfigured and moved if needed for future events.

## Features & Benefits

- Incredible stability
- Engineered for multiple applications: rowing, swimming, boating, fishing
- Modular design for easy installation
- Highest-quality materials for long life and low maintenance
- Attachable to standard EZ Dock system or traditional docks
- Meets FISA and US Rowing standards
- High live-load capacity allows for multiple launches on both sides

# DOCK Accessories

Designed with the same durability, safety, and quality as the docks, our accessories withstand the toughest weather.

## BENCHES

Sit comfortably and enjoy the Dock Life around you.

## LADDERS

Make the water more accessible.

## DOCK BUMPERS

Protect your boats and equipment.

## STORAGE BOXES

Store life vests, ropes, and anything else you need close to the water.

## CLEATS

Sturdy tie-up cleats let you secure your boat or watercraft.

# Personal Watercraft

## PORTS

EZ Dock offers several choices to accommodate both large and small PWC's. Our modular configurations work with WaveRunners®, Sea-Doo®, and Jet Ski® watercraft.

We revolutionized PWC docking and launching with the creation of EZ Port®, the original, drive-on, push-off PWC port. Our ports protect your PWC from the elements while helping you get in and out of port as effortlessly as possible. Our patented design pioneered the use of adaptable rollers, perfected the self-centering split entry, and created the modular inline system for the simple, durable, and efficient storage of multiple PWC's.

- UV-16-protected, rotationally molded polyethylene
- Industry-leading impact resistance requires no environmentally harmful foam filling
- Designed to help prevent punctures and other damage
- Stable and durable walking and porting surface
- Adjustable rollers
- Optional bolt-on bow stop for added security
- Seamlessly connects to any EZ Dock system
- Attaches to existing traditional dock system or can be secured to the shore or a lake bed without a dock
- Keeps any PWC high and dry, protecting your investment
- Available in beige or gray

2i

The original drive-on PWC port, this top-of-the-line PWC port is the simplest and most durable drive-on, push-off method of dry docking. The EZ Port Max 2i is a single-piece, self-centering design with split entry and self-adjusting rollers that make loading and unloading smooth and effortless.

The EZ Port Max 2i features an integrated built-in flotation device designed for heavy lifting—up to 1,700 pounds (771 kg) with an easy entry and roller system to allow for effortless porting and launching. The EZ Port Max 2i also features five hand-hold/tie-off points to allow for easy handling and/or mooring.

VXP

The EZ Port VXP gives you real peace of mind knowing that your PWC is well-protected against the weather, waves, wakes, or sinking at the dock. It makes cleaning, maintaining, and boarding your PWC as effortless as easing it onto the port or into the water. The VXP connects seamlessly with any EZ Dock system, is compatible with all existing docks and can be secured to the shore or lake bed without a dock. The VXP is a small PWC launch designed to accommodate virtually any brand or type of shorter-end or rec-lite PWC under 1,300 pounds (590 kg).

18

280

The EZ Port 280 widebody design is the widest port on the market, with 10" additional walkway space on each side of the craft that makes loading and unloading effortless, no matter the type of waterfront location. The EZ Port 280 is the perfect solution for those looking for an easy-to-access, drive-on port to keep their PWC high and dry in both saltwater and freshwater.

19

# EZ PORT MAX

The EZ Port MAX is our flexible port system. This expandable, adjustable, and modular system is ideal for multiple PWC's, making it perfect for businesses that rent PWC's or homes with multiple PWC enthusiasts. This unique PWC lift can accommodate PWC's of different shapes, sizes, and weights. The EZ Port MAX is one of the most flexible options available and can be customized to maximize slip spaces with tandem inline PWC's that help you accommodate more per slip. Just configure the design that best suits your waterfront and adjust the design anytime your needs change.

Designed to keep your PWC safe, stable, and easy to use

- Protects against hull damage and deterioration from exposure to water, waves, and boat wakes
- Multiple-port design supports all PWC makes, and models
- Adjusts to changing water levels
- Provides peace of mind while unattended at the dock
- Adjustable rollers adapt to all PWC brands and hull designs for effortless porting and launching
- Provides easier access for maintenance
- Board and exit your PWC easily while on the port
- Connects seamlessly with existing EZ Dock systems
- Cleans easily with soap and water, recommended pressure-washer setting, or other EPA-approved cleaners
- Adaptable to any existing dock system or standalone application

# GIVE YOUR *Boat* SOME AIR

Keeping your boat high and dry has never been so easy. EZ Dock commercial and residential boat ports and lifts are a fast and simple solution if you need a low-maintenance, stable, durable, drive-on boat dock. Our floating boat dock solutions can handle boats from 2,000 to 7,000 pounds (907 to 3,175 kg).

## AEGIS™

The newest offering of boat lifts is the Aegis. This boat lift promotes fast and convenient access to your boat and keeps it looking new. EZ Dock offers a complete system along with new air assist pumps in both 110 volt and solar models. Each boat lift is available with a manual control that is placed near the lift or with a remote control. The lift raises to keep the boat out of the water and free from marine growth on the hull of your boat. This lift allows you to keep your boat/investment looking like new for years to come.

- Precision-designed, custom-molded LLDPE, high-impact polyethylene tanks
- Above-water, hot-dipped, galvanized steel parts prevent corrosion
- 4" Frame Channel with 3" Adjustable Expansion Channel
- Heavy-duty 1/4" Torsion Bars
- 5" high-density polypropylene square hole bushings Grade-8 pivot hardware
- Highly resistant to impact and low-water damage
- Work with inboard, inboard/outboard or sterndrive, V hulls, pontoon, tritoon, and wake boat hulls
- Prevents marine growth from accumulating on outdrives
- Easy access to your boat when raised, for easy maintenance
- Heavy-duty hull-support system
- Structural-grade dock brackets with molded bumper guards
- Two-piece stainless/polyethylene pitman bushings

## EZ BOATPORT®

The EZ BoatPort is a simple and stable drive-on, drive-off method of docking for boats in a wide range of sizes up to 5,000 pounds (2,268 kg). Removable and changeable bunks can accommodate hull shapes from flat bottoms to deep Vs, making this the perfect choice for craft including skiffs, fishing boats, and jet boats. The EZ BoatPort is also available with side extensions for additional walk-around room and access to the sides of your boat for cleaning, maintenance, and covering.

- Floating chambers move with the changing water levels
- Works with existing floating or fixed docks
- Can be used in as little as two feet of water
- No winching, cranking, or hoisting
- Flip-up front cleat to secure the boat to the port

# EZ Launches

Using our innovative floating dock design, we've engineered a flexible, easy-to-use launch that makes getting into your kayak or canoe quick and simple. No matter if you're a beginner, a seasoned veteran, or someone needing a little extra assistance, the EZ Launch for Kayaks allows people of all ability levels to enter and exit with ease. Best of all, you can extend your season into the cooler months without worrying about getting wet!

## COMMERCIAL

A first in the industry, the EZ Launch Accessible Transfer System for kayaks and canoes provides individuals with disabilities accessibility that exceeds the minimum requirements of the Americans with Disabilities Act (ADA). The easy-to-use transfer bench and transfer slide boards allow users to simply sit, slide over, and drop down, then use the side rails to pull off or back on. The customizable system is ideal for people of ALL abilities, providing extra stability when launching and docking a kayak or canoe.

- Guide rails for easy access in and out of the water
- Launch rollers for easy movement of the watercraft
- Transfer bench with two heights for easy transfer from wheelchairs
- Transfer slide boards with two heights for differing watercraft sizes
- Perfect for high-traffic, public use

## EZ LAUNCH FOR KAYAKS

With the EZ Launch for Kayaks, docking and launching your kayak or canoe has never been easier. The innovative new one-piece design, complete with built-in launch-assist paddle notches, makes this the smartest way to stay dry while entering and exiting your watercraft. And with the ability to connect with our standard and low-profile dock sections (as well as any other traditional docks) the EZ Launch for Kayaks can be installed virtually anywhere! Whether you are an experienced kayaker or just getting started, you will feel confident and stable using our new launch.

- Allows users a stable and dry entry into the water
- Launch-assist paddle notches for support in kayak entry and exit
- Ability to connect to virtually any dock (EZ Dock, traditional wood docks, and more)

# GANGWAY SYSTEMS

Easy Access – Engineered with the same technology and quality as our dock sections, EZ Dock gangways offer uncompromised durability and modular versatility. Gangways are manufactured from aluminum, wood, or polyethylene.

- Polyethylene and Aluminum gangway systems
- Slip-resistant surface provides maximum stability and support
- Maintenance-free design
- Heavy-duty construction is built to last
- ADA compliant
- Extra-long gangways to reach faraway docks and bolt-on handrails

# ANCHORING

Once you've created your EZ Dock, you'll need to select an anchoring system to work with your existing piling or your new installation. Our wide variety of anchoring components can accommodate most water conditions and bottoms (deep, shallow, rough, muddy, or sandy) and are simple to install. EZ Dock anchoring products are made from long-lasting, durable materials that can accommodate standard or heavy-duty use.

# RAILING

EZ Dock modular railings are safe, secure, and conform to all States Organization for Boating Access (SOBA) and Americans with Disabilities Act (ADA) guidelines. Railing sections are available in a variety of lengths and profiles designed to provide safety and security with minimal obstruction. We offer a wide variety of materials, colors, and configurations for your rails. Choose from many powder-coated color finishes, stainless steel, or aluminum.

- FRG - Forest Green
- DBW - Brown
- BLU - Blue
- BEI - Beige
- AL - Aluminum, standard

COMPLETE YOUR  
DOCK *Life* SETUP

# HIT THE *Trail*

EZ Trail is an innovative way to create accessible ramps and pathways in your woodland, wetland, or any place you need a safe and durable traversing platform. Our system is less invasive, and the large interconnecting, modular sections are simple to install.

You can easily add sections as needed or reconfigure your walkway any time you'd like. EZ Trail features a versatile and expandable floating design that is suitable for land and water and can be easily moved (unlike fixed walkways, ramps, piers, or docks).

## ENVIRONMENTALLY FRIENDLY

Treated wood products can be dangerous to wildlife habitats because they deteriorate, break apart, and leave debris in the water, but EZ Dock uses only safe, nontoxic materials. The uniquely engineered sections provide stable flotation, and the trail can be suspended above vegetation during periods of low water, keeping it from harming the habitat. The system is less invasive as it doesn't require a permanent foundation, allowing healthy plant growth underneath.

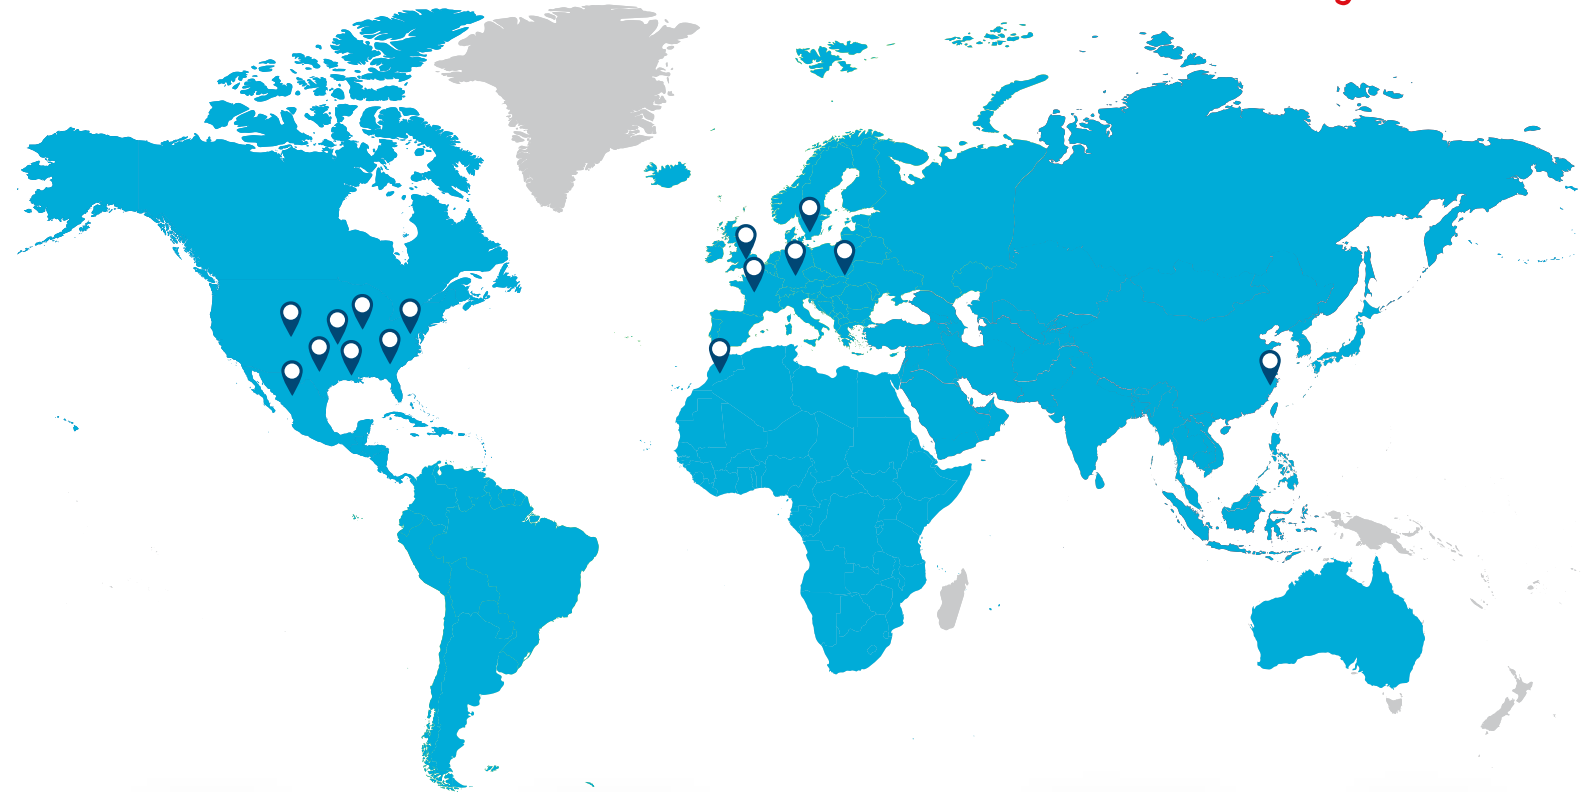

# THE *Best* WORLDWIDE DISTRIBUTOR NETWORK IN THE INDUSTRY

The EZ Dock global network of highly trained and knowledgeable dealers and distributors is ready to help. Our experienced team is standing by to help you choose a system that will maximize your space and suit your specific application.

# THE PLAYPOWER *Advantage*

In addition to having the world's best distribution network, EZ Dock, Inc is a wholly owned subsidiary of PlayPower. As the global leader in playground manufacturing, PlayPower designs, manufactures, and installs over 30,000 recreational structures every year in over 200 countries. As a company, we leverage the innovation from each of our brands to create the most unique, cutting-edge, and highest quality play experiences inspired from locations around the world. When you partner with a PlayPower company, you're not just working with a single business. You're drawing from wealth of experience from 11 brand leaders in the indoor and outdoor play, site amenities, water, and safety surfacing industries.
